Preface.....iv
Pressed Flowers–*Taylor Chubz*.....4
Birthday Cards–Katie Wilson.....1
3D Printed Dragons–*Wyatt Biggs*.....7

Preface

PRESSED FLOWERS

Taylor Chubz

Project Facts

Time

Labor	25-30 M
Harvesting	10 M
Setup	10 M
Pressing	13 W

Tools

Paper Towels

Style: No Pattern

Cardboard

Style: Corrugated
Dim: 1'H x 3'W x 1/4"T
Origin: Moving box, flattened

Yearbook

Style: Hardcover
Dim: 11"H x 8.5"W
Qty: 3

Storage Tote

Weight: 20-25 lbs
Dim: 2'L x 1'W x 1'H
Material: Plastic, filled w/ Magazines

Materials

Flowers

Location: Colorado Springs, CO
Time of Year: Summer?
Form: Spool

1 **Name, Common:** Oxeye Daisy
Name, Scientific: *Leucanthemum vulgare*
Qty: 6

2 **Name, Common:** Black-eyed Susan
Name, Scientific: *Rudbeckia fulgida*
Qty: 5

...

Materials, Continued

Flowers, Continued

3 **Name, Common:** English Lavender
Name, Scientific: *Lavandula angustifolia*
Qty: 4

4 **Name, Common:** Narrow-Mouth Penstemon
Name, Scientific: *Penstemon breviculus*
Qty: 4

5 **Name, Common:** Garden Rose
Name, Scientific: *(Rosa x hybridia)*
Qty: 2

Materials

Filament

Plastic: PLA
Mfr: MatterHackers
Form: Spool
D: 1.75mm
Type: Silky MH Build Series Magic

1 **PN:** M-2U9-SZN8
Color 1: Gold
Color 2: Magenta
Qty: ~100 g

2 **PN:** M-AAK-X697
Color 1: Blue
Color 2: Green
Qty: ~100 g

3 **PN:** M-247-UEQE
Color 1: Pink
Color 2: Blue
Qty: ~100 g

Introduction

Because a handful of friends wanted an articulated dragon as a toy, dragons of different sizes and colors were printed in dual-color filament. The quality of the articulation was of interest due to the potential use of articulating components in novel and currently unimagined products. The physical properties and appearance of dual-color filaments was of interest as it results in a somewhat iridescent surface finish which could prove useful in projects with an aesthetic, rather than purely functional aim. ----------

Method

Setup

Model Website [1];
Filament [2];

First Dragon

To get a feel for the surface finish and appropriate slicing settings, I printed a test Benchy [2]. First attempt; Broken toolhead (Appendix A)

After successfully replacing the hotend of the X1C, I printed the dragon d

Figure 3.1: Final print of the first dragon

Second Dragon

Blue-Green; 125% Size; 2 attempts; a: 0.2 first layer height; b: 0.3 first layer height

Figure 3.1: Gold-Magenta Benchy

Figure 3.2: Final print of the second dragon on a shelf

Third and Fourth Dragon

Pink-Blue
75% Size
3 attempts: 0.3 first layer height
    a: cubic infill
    b: gyroid infill
    c: gyroid infill take 2
Final settings (Appendix B)

Figure 3.3: Final prints of the third (side) and fourth (side) dragon
